

Rudra
Silica & Minerals
SUPPLIER AND TRADERS

GST Registered Company

- SiO₂ >98.5%, ADV<5 cc
- Natural Semi Rounded Grains with Smooth Texture
- AFS Range: 30 to 90
- Clay 0.1% to 0.3%
- Four Sieve Distribution > 85%
- Excellent Control Over Fines

Your Trusted Partner in Mineral & Silica Sand Solutions

**Supplying High-Quality
Minerals & Silica Sand**

"We deliver what we commit and we commit what we can deliver."

Welcome To Our Company

Rudra Silica & Minerals is a leading supplier and trader of premium minerals and silica sand, committed to delivering quality materials for various industrial applications.

WHY CHOOSE US

High-Quality Products
premium-grade silica sand and minerals

Customizable Solution
Tailored silica and mineral grades

State-of-the-Art Processing
Advanced grading, washing, and drying

Great Industry Experience
Expertise in silica and minerals

Sustainable Practices
Eco-friendly & environmental minimal impact

Reliable Supply Chain
Timely deliveries and consistent availability

Vision

To become the most trusted name in the mineral supply industry by ensuring top-quality products and exceptional service.

Mission

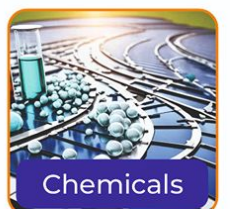

We strive to meet the needs of our clients by offering consistent, reliable, and high-grade minerals and silica sands.

Goals

o expand our market reach across regions and diversify our product offerings to meet emerging industry demands.

Industries We Serve

Our Products

All Types of Foundry Grade Silica Sands

We supply a wide range of foundry grade silica sands that are ideal for use in the casting process for metal foundries. These sands offer high thermal resistance, excellent permeability, and ensure smooth surface finishes on cast products.

Available Sizes (Grain Fitnesses Nos)

30-35 35-40 40-45 45-50 50-55 55-60

Mode Of Packaging 1. We can supply loose loaded in trucks

Washed & Dry Graded Silica Sands & Glass Grade

Our washed and dry graded silica sands are of superior quality, ideal for applications in the glass industry. The sands undergo thorough washing and grading to meet stringent requirements, ensuring high purity and uniform particle size for optimal results in glass production.

Construction Sand

We provide high-quality construction sand suitable for use in concrete production, masonry work, and various construction projects. Our sand is processed to ensure consistent particle size and minimal impurities, making it perfect for strong and durable construction materials.

Dealer of All Kinds of Mineral Processors

As dealers of a wide range of mineral processors, we offer top-quality processed minerals for industrial and commercial use. Our selection includes minerals that are refined and prepared to meet the specific requirements of various industries, ensuring superior performance and reliability.
